

How to Stock Multi-Price UOM Zone-A-Grams

Unit of Measure **Zone-A-Grams** are permanent set-ups identifiable by their **light green shelf strip** with a single price point UOM label above \$1.25.

The Zone-A-Gram display guide should be easily accessible behind each section.

Pegged Unit of Measure **Zone-A-Gram** products also require UOM labels.

If some product is out of stock, check your on-hands. Cycle count as needed. Condense or expand remaining product.

- 1 **Remove** UOM label from the box.
Do not use as sticker.

- 2 **Place** UOM label in the shelf strip holder.

- 3 **Place** product on shelf.

Adjust UOM shelf label be **left aligned** to the product.

Use magnetic dividers at the ends of shelves to keep product secure to shelf and maintain price integrity.

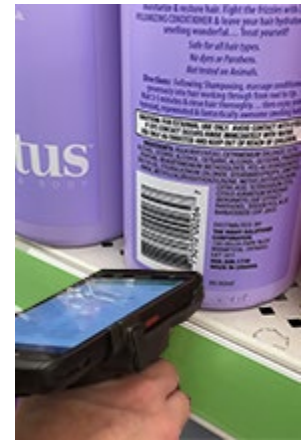

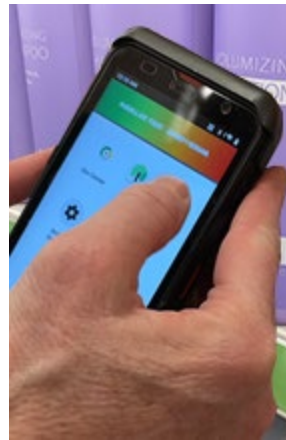

How to Stock Multi-Price UOM Zone-A-Grams

If a shelf or peg UOM label is missing or incorrect, you will need to print a new label.

1 Tap BUILD BATCH.

2 Scan the product's bar code.

3 Label will automatically print.

Select the pencil icon to adjust quantity, select trashcan icon to delete from batch.

4 Remove UOM label from printer.

5 Place new UOM label in shelf insert, peg, or bin.
