## 15 Premium Adhesive

- Pre-mixed premium Mastic designed for ceramic tile on interior floors and walls
- High tack, non-slip, white adhesive is suitable for light colored tile and grouts
- Use for ceramic tiles smaller than 10" x 10" on walls and 6" x 6" on floors
- 1-year product warranty

LAT\_PT\_PREM\_ADHEV

## 125 Tri Max®

- Anti-fracture and sound reduction polymer-modified thin-set mortar for interior floors
- 25lb. bag of lightweight mortar offers similar coverage as a 50lb. bag of traditional mortar
- Protects from in-plane cracks up to 1/8"
- 36% post-consumer recycled content contributes to LEED
- Meets ANSI A118.12 specification

LAT\_PT\_TRI\_MAX

## Hydro Ban® Quick Cure

- Thin waterproofing and crack isolation membrane that does not require fabric
- Allows for flood testing in as little as 30 minutes at 70°F or higher
- Able to cure even in humid, cold, and damp environments
- Anti-fracture resistant to 1/16" when applied at 30mils thick
- Exceeds ANSI A118.10

LAT\_PT\_QUICK\_CURE

## Multimax™ Lite

- Lightweight polymer-modified medium-bed mortar for interior and exterior floors and walls
- Non-sag, non-slump performance for large and heavy wall tile
- Smooth, creamy, lightweight formula offers similar coverage of 50lb. bag of traditional mortar
- Can be used in submerged applications
- Exceeds ANSI A118.15 HET, A118.4 and A118.11

LAT\_PT\_MATLIMAX\_LITE

## NXT® Skim

- Premium cement-based underlayment patch for interior flooring applications
- Fast drying formulation allows for floor installation in as little as 20 minutes
- Can be applied from skim depth to 1in. in a single application
- Creamy consistency makes it an ideal choice for skim coating
- Mix with NXT® Embossing Admix for use on non-cushioned vinyl and VCT flooring

LAT\_PT\_NXT\_SKIM

## Latasil™ Caulk

- High performance, one component, 100% silico sealant design for tile and stone applications
- Designed for interior and exterior use in both residential and commercial applications
- Equipped with anti-microbial technology to protect the treated surface
- Easy to smooth and tool

LAT\_PT\_LATS\_CAULK

## 253 Gold

- Polymer-modified thin-set mortar for interior and exterior floors and walls
- Suitable for installation of ceramic tile, porcelain tile, and stone
- Ready for grout in as little as 24 hours
- Exceeds ANSI A118.4 and A118.11

LAT\_PT\_253\_GOLD

## LHT™ Plus

- Polymer-modified medium-bed mortar for interior and exterior floors and walls
- Approved for use over exterior glue plywood for interior installations
- Specially formulated to support large and heavy tiles and reduce lippage
- Exceeds ANSI A118.4 and ANSI A118.11

LAT\_PT\_LHT\_PLUS

## LHT™

- Polymer-modified medium-bed mortar for interior and exterior floors
- Specially formulated to support large and heavy tiles and reduce lippage
- Build up to 3/4" without shrinkage or set-up issues
- Exceeds ANSI A118.4 H

LAT\_PT\_LHT

## 252 Silver

- Polymer-modified thin-set mortar for interior and exterior floors and walls
- Suitable for installation of ceramic tile, porcelain tile, and stone
- Ready for grout in as little as 24 hours
- Exceeds ANSI A118.4 shear bond strength requirements

LAT\_PT\_252\_SILVER

## 4 XLT

- Polymer-modified medium-bed mortar for interior and exterior floors and walls
- Non-sag performance for large and heavy wall tile
- Ideal performance for extra heavy large format tiles
- Exceeds ANSI A118.4, A118.11, and A118.15

LAT\_PT\_4\_XLT

## Vapor Ban™ Primer ER

- Single coat, 2-part epoxy coating designed to control vapor emission in new and existing concrete slabs
- Ideal for on grade and elevated concrete slabs
- Rapid setting technology is ready for self-leveling underlayment or floor covering in 24 hours
- Exceeds STM F3010 standard with a perm rating of 0.094

LAT\_PT\_PRIMER\_ER

# Product Tags

## NXT® Patch

- Premium cement-based underlayment patch for interior and exterior applications
- Fast drying formulation allows for floor installation in as little as 40 minutes
- Level from 1/8" to 1 1/2" in a single application
- Excellent bond and compressive strength

LAT\_PT\_PREM\_ADHEV

## Hydro Ban®

- Thin waterproofing and crack isolation membrane that does not require fabric
- Allows for flood testing in as little as 2 hours at 70°F or higher
- Anti-fracture resistant to 1/8"
- Formulated with antimicrobial technology to prevent mold and mildew
- Exceeds ANSI A118.10 and A118.12

LAT\_PT\_PREM\_ADHEV

## 4 XLT Rapid

- Polymer-modified medium-bed mortar for interior and exterior floors and walls
- Non-sag performance for large and heavy wall tile
- Rapid setting mortar is ready for grout in 3 to 4 hours
- Ideal performance for extra heavy large format tiles
- Exceeds ANSI A118.4 and A118.15

LAT\_PT\_PREM\_ADHEV

## Spectralock® 1

- Professional-grade pre-mixed grout for interior and exterior residential and commercial applications
- Non-sag, color consistent, stain resistant, and crack resistant
- No sealing or mixing required
- Formulated with anti-microbial protection
- Can be used for grout joints 1/16" to 3/8"

LAT\_PT\_PREM\_ADHEV

## Hydro Ban® | Cementitious Waterproofing Membrane

- Polymer-modified, cementitious waterproofing material that mixes with water
- Can be used on walls and floors in wet areas
- Allows for flood testing in as little as 2 hours at 70°F or higher
- GREENGUARD certified and LEED compliant
- Exceeds ANSI A118.10 and A118.12

LAT\_PT\_PREM\_ADHEV

## Prime-N-Bond™

- Versatile, ready-to-use, low VOC primer enhances adhesion to smooth and difficult to bond substrates
- Use of interior floor and wall applications
- Low VOC and low odor make it an ideal choice for interior, occupied areas
- Improves bonding of cement self-levelers and mortar
- Single coat application applies with a roller or brush

LAT\_PT\_PREM\_ADHEV

## 254 Platinum

- Polymer-modified thin-set mortar for interior and exterior floors and walls
- Superior bond strength in exterior and submerged applications
- Extended open time offers superior adhesion and workability
- Formulated with anti-microbial protection
- Exceeds ANSI A118.4, A118.11, and ANSI A118.15

LAT\_PT\_PREM\_ADHEV

## Permacolor®

- Designed for interior and exterior use in both residential and commercial applications
- Fast setting, color consistent, and stain resistant grout
- Formulated with anti-microbial protection
- Ideal for floor and wall grout joints 1/16" to 1/2"

LAT\_PT\_PREM\_ADHEV

## 209 Floor Mud

- Pre-blended dry mix of sand and portland cement for conventional mortar beds
- Mix with water to make semi-dry conventional mortar beds
- Ideal for mortar beds, shower pans, and leveling beds
- Interior use only

LAT\_PT\_PREM\_ADHEV

## Fracture Ban™ SC

- Roll on anti-fracture membrane prevents cracks from transferring to tile
- Rapid drying time allows floor coverings to be installed in 1 to 2 hours
- Anti-fracture resistant to 1/8"
- Formulated with antimicrobial technology to prevent mold and mildew
- Exceeds ANSI A118.12

LAT\_PT\_PREM\_ADHEV

## Ready to Use Grout

- Designed for interior residential and commercial floor and wall applications
- Color consistent, crack resistant, and stain resistant grout
- No sealing or mixing required
- Ideal for floor and wall grout joints 1/16" to 1/2"

LAT\_PT\_PREM\_ADHEV

## Spectralock® Pro Premium (Part A)

- Easy to use two-part system (requires part B)
- Professional-grade epoxy grout for interior and exterior residential and commercial applications
- Non-sag, color consistent, stain resistant, and crack resistant
- No sealing required
- Formulated with anti-microbial protection
- Can be used for grout joints 1/16" to 1/2"

LAT\_PT\_PREM\_ADHEV

# Product Tags

## Spectralock® Pro Premium Translucent

- Professional-grade epoxy grout for interior and exterior residential and commercial applications
- Translucent effect offers an opaque color that diffuses light and gives a vibrant design
- Non-sag, color consistent, stain resistant, and crack resistant
- No sealing required
- Formulated with anti-microbial protection
- Can be used for grout joints 1/16in. to 1/2in.

LAT\_PT\_PREM\_ADHEV

## Latapoxy® 300 Adhesive

- Chemical resistant, epoxy adhesive for interior and exterior walls and floors
- Ideal for installing moisture sensitive and resin back tiles
- High bond strength and maximum chemical resistance
- Non-staining on white and light-colored tile and stone
- Eligible for the LATICRETE Lifetime System Warranty

LAT\_PT\_PREM\_ADHEV

## NXT® Level Plus

- Free-flowing, cement-based self-leveling underlayment for leveling interior substrates
- Use for residential and commercial interior floors
- Level from 1/8" to 1 1/4" in a single application
- Ready for floor installation in 16 hours
- Use in combination with NXT® Primer to properly prepare your subfloor

LAT\_PT\_PREM\_ADHEV

## NXT® Level

- Cement-based self-leveling underlayment for leveling interior substrates
- Use for residential and commercial interior floors
- Level from 1/8" to 3" in a single application
- Ready for floor installation in 24 hours
- Use in combination with NXT® Primer to properly prepare your subfloor

LAT\_PT\_PREM\_ADHEV

## Tri-Lite™

- Lightweight polymer-modified medium-bed mortar for interior and exterior floors and walls
- Non-sag performance for large and heavy wall tile
- 30lb. bag offers similar coverage as a 50lb. bag of traditional mortar
- Smooth, creamy, and easy-to trowel consistency
- Exceeds ANSI A118.15 HET, A118.4 and A118.11

LAT\_PT\_PREM\_ADHEV

## 257 Titanium™

- Ideal for installing Gauged Porcelain Panels/Slabs
- Lightweight polymer-modified thin-set mortar for interior and exterior floors and walls
- Formulated with anti-microbial protection
- Smooth, creamy, lightweight 25lb. bag offers similar coverage as a 50lb. bag of traditional mortar
- Exceeds ANSI A118.4, A118.11, and ANSI A118.15

LAT\_PT\_PREM\_ADHEV

## Fracture Ban™ 40

- Provides anti-fracture and sound reduction in one convenient easy to install product
- Easy to use peel-and-stick installation is ideal for use under Thin Tiles
- Anti-fracture resistant to 3/8"
- Uniquely thin system of 40mil
- Use in combination with Fracture Ban™ Primer to properly prepare your subfloor

LAT\_PT\_PREM\_ADHEV

## Fracture Ban™ 90

- Provides anti-fracture and sound reduction in one convenient easy to install product
- Easy to use peel-and-stick installation is ideal for use under Thin Tiles
- Anti-fracture resistant to 3/8"
- Uniquely thin system of 90mil
- Use in combination with Fracture Ban™ Primer to properly prepare your subfloor

LAT\_PT\_PREM\_ADHEV

## 1500 Sanded

- Cementitious grout for interior and exterior use in both residential and commercial applications
- Use for grout joints 1/16" to 3/8"
- Requires use of a sealer

LAT\_PT\_PREM\_ADHEV

## 1600 Unsanded

- Cementitious grout for interior and exterior use in both residential and commercial applications
- Use for grout joints 1/8" or less
- Requires use of a sealer

LAT\_PT\_PREM\_ADHEV

## STRATA HEAT™ Wire

- Versatile floor warming wire designed for use under many types of floor coverings
- Multiple spacing options allow for variability in heat output
- Eligible for the LATICRETE Lifetime System Warranty

LAT\_PT\_PREM\_ADHEV

# Easel and Wedge Signage

## Step 1

- Place the promotional easel sign on the countertop of the PRO Desk.

## Step 2

- Place the promotional wedge sign near the front desks at the cash wrap and another near the PRO Desk.

## Floor Wedge Assembly

### PROCESS

- 1 Bend back triangular side at a right angle to the rectangular side. Bend back the narrow strip along the notches. Repeat process for the second panel.

- 2 Insert the six tabs of one panel securely into the slits of the second panel. Bend panels around so that the second set of tabs aligns with the other set of notches. Insert tabs securely in place.

- 3 Ensure a wedge shaped cone is produced.

- 4 Bend-in the bottom edges under the wedge on all four sides.

# Grout Charts

Deco & Tile

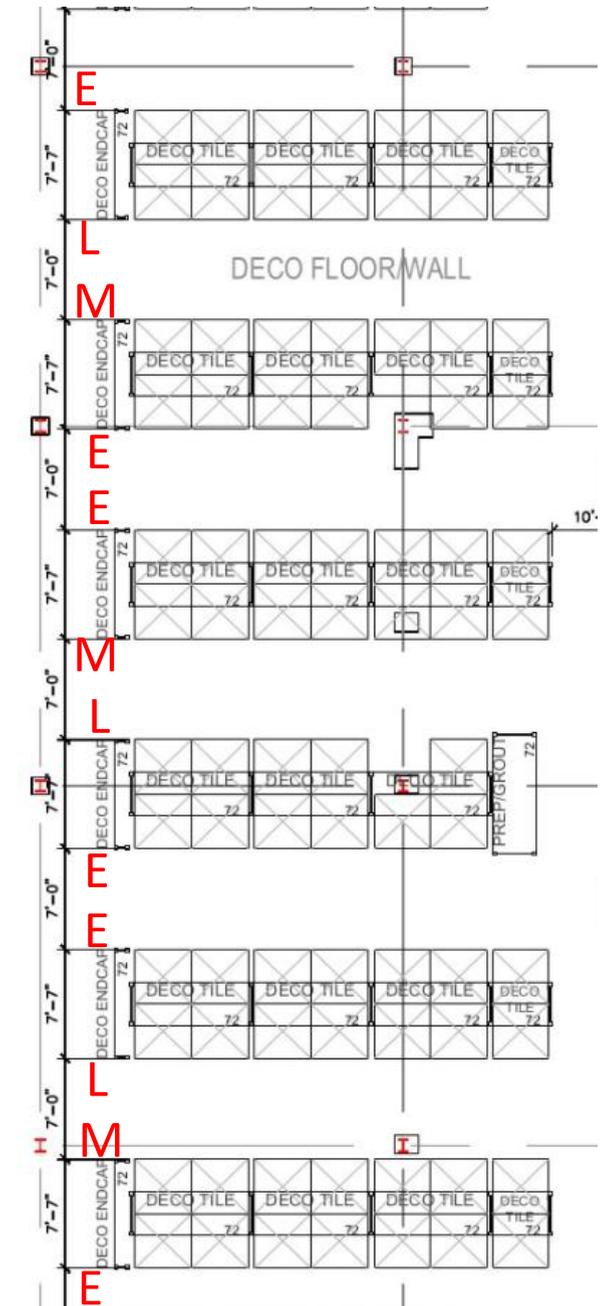

## Step 1

- In Deco and Tile Departments, place the Laticrete grout charts opposite the Mapei grout charts on the deco side caps
- Alternate between Laticrete and Mapei front facing

Key:

- M: Mapei Grout Chart
- L: Laticrete Grout Chart
- E: Equity Filler Sign

## Step 2

- In the following aisle after the grout charts, place equity filler signs on the side caps

## Step 3

- Repeat steps 1-2 until all deco runs are complete

# Beam Elevations

- Set beams to proper heights
  - Beam heights are in POGs and are always measured from the floor to the top of the beam

Bay Type	Beam Height
New Store Beam Set	3", 3", 3" – Hand stacked
Existing Store Beam Set	5", 5", 3" – Hand stacked

**\*Refer to POGs for reference**

Support Bars Shelf Positions	Shelf Height
Shelf 1	42" (6 Bars)
Shelf 2	56" (6 Bars)
Shelf 3	70" (6 Bars)

**\*Once support bars are in, place a piece of Melamine in each shelf**
